TREFFEN “STELLE IN CAVA 2021”

Comune di Buscate (MI)

The 2021 annual meeting of Unimog Club Italia will be hosted by the Municipality of Buscate (MI), from Friday 4 to Sunday 6 June. The meeting will take place at the Base Camp set up at the Municipality's Exhibition Centre in Via dei Campacci (Figure 1). Doors will open on Friday 4 June at 2 o'clock P.M.

The meeting will be held in two main areas: the Base Camp, where the vehicles will be parked and the social activities and entertainment will take place, and the quarry of Buscate, where the driving tests and off-road courses for members, supporters and the Civil Protection will take place.

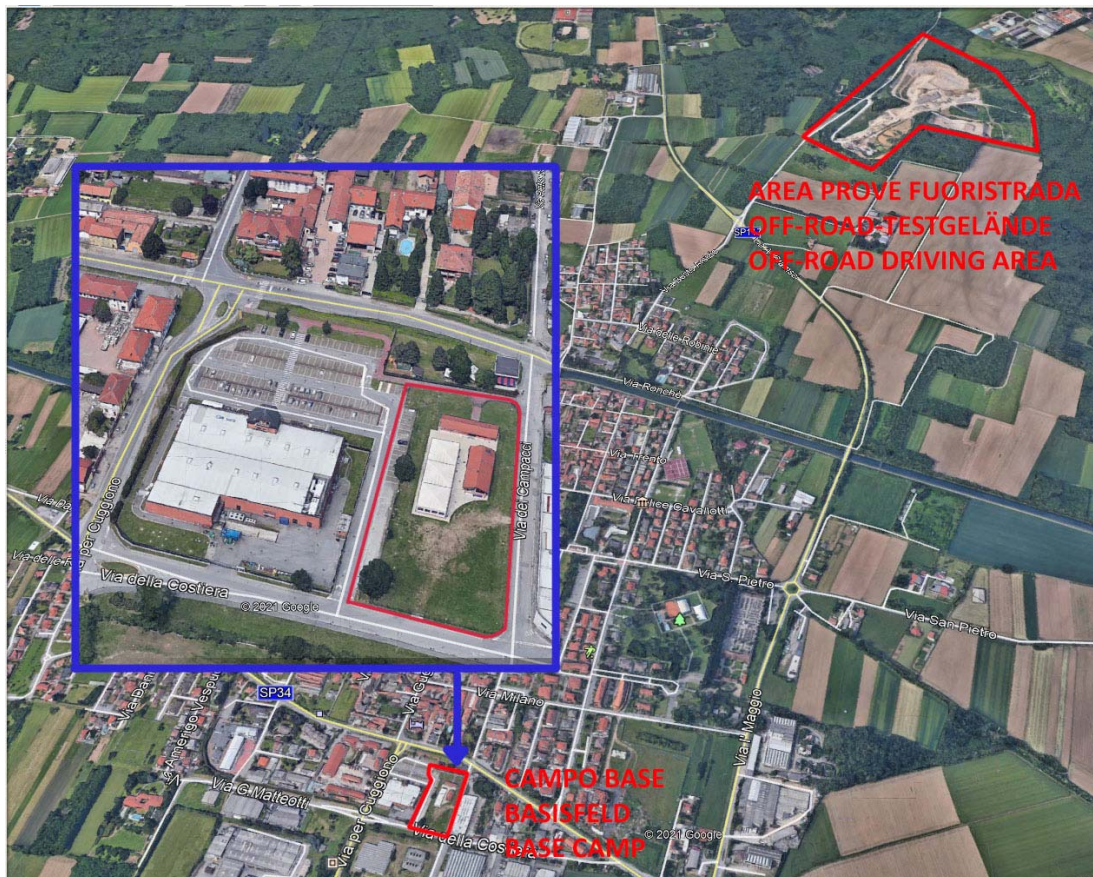

Figure 1 – Main areas of the “Stelle in Cava” Event

The vehicles will be parked inside the base camp, which is protected by a fence and manned gates. The facility is equipped with toilets and showers are provided. Camping inside the camp is allowed.

The main driveway entrance will be on Via dei Campacci and will be manned for the duration of the meeting.

There will be a catering service offering the possibility to eat dinner on Friday and Saturday and breakfast on Saturday and Sunday. Lunches will be held in the quarry.

For those who wish to sleep in the accommodation facilities in the area, we have made an agreement with "Scià on Martin" Hotel and the Bed & Breakfast "Lo Stallone", which are located a few meters away.

Adjacent to the base camp is the Tigros supermarket, useful for those who need to do their shopping.

To ensure high levels of security, a team of specialized operators will be available to carry out rapid Covid detection tests. There will be a charge for this service, but it will be at a heavily discounted price, thanks to an agreement with the Club.

The procedures foreseen by the applicable Italian laws and related to social distancing and Covid control will be in place.

At the base camp, theoretical courses will be held in preparation for the practical activities to be carried out at the Cava Campana di Buscate (Figure 2) where an off-road circuit will be set up for those who already have experience in the sector. Another independent circuit will be dedicated for the driving courses.

Since training and social involvement are two of the missions of our Club, we decided to offer Civil Protection Groups the opportunity to attend the driving courses, with the aim of train them on some conditions that can occur in real emergencies.

Figure 2 – Cava Campana quarry in Buscate

The programme of the event is shown in Figure 3: gates will open in the early afternoon of Friday. No special activities are planned other than the registration of participants and a moment of gathering. At 20:00 the dinner will be held.

Activities will start on Saturday morning at 07:00 with breakfast.

The Secretary will open at 08:30 with the registrations and the entrance of the incoming vehicles.

From 09:30 to 10:00 there will be a Safety Briefing for all those who will be driving in the quarry, including those who will attend the driving course. At the end, the group that will operate on the free track will move to the quarry under the guidance of one of our team leaders.

From about 10:00 to 11:30 there will be a theoretical off-road driving course held by our instructors and, at the end, the group will move to the quarry to begin the practical part (scheduled for the afternoon).

Lunch time from 12:30 to 14:00 at the quarry: an ad hoc service will be set up on site.

From 14:00 to 18:00 there will be the practical part of the driving course and, at the same time, it will be possible to ride on the free track. The return to Base Camp is scheduled at 18:00

From 18:00 to 20:00 there will be time to relax and prepare for dinner at the Base Camp.

The programme for Sunday is essentially a copy of Saturday's. The activities in the quarry will end, however, by 17:00 and there will be the delivery of driving certificates to participants.

For those who are not interested in the activities taking place in the quarry, we have prepared a programme of visits to interesting sites in the area (from museums to villas and farms). As the status of reopening of these attractions is not clear at the moment (due to covid), we will communicate the details later.

Day	Programme of activities
Friday 04	Opening of registration and entry of vehicles and guests. Free lunch at local restaurants or in the field. Dinner, free or in the field, at the discretion of participants.
Saturday 05	Registration of the incoming vehicles and guests. Breakfast in the field at discretion.
